

## MAP Activity Sheet: **Design An Arty-Room**

The way one designs one's indoor space can tell a lot about the individual. Try designing a room using artworks from the MAP collection. First print out this template of an empty room, or draw one yourself.

Next, here are some details from various artworks from the museum. Choose which ones you would like to include in your room – print and cut those out!

*Once you have your cut-outs ready, stick them onto the template in the place that you have decided for it. You can also add furniture cut-outs from other magazines and books or draw them out yourself.*
